Independent Auditors' Report

The Honorable William G. Holland, Auditor
General of the State of Illinois, and the Members of the Board of the
Illinois Housing Development Authority

As Special Assistant Auditors for the Auditor General, we have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Illinois Housing Development Authority (the Authority), a component unit of the State of Illinois, as of and for the year ended June 30, 2010, which collectively comprise the Authority's basic financial statements as listed in the accompanying table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the Authority as of June 30, 2010, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 3 through 11 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The Combining Mortgage Loan Program Fund Schedules and the Combining Single Family Program Fund Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Combining Mortgage Loan Program Fund Schedules and the Combining Single Family Program Fund Schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

June 30, 2010

(Unaudited)

This section of the Illinois Housing Development Authority's (Authority) annual financial report presents management's discussion and analysis of the Authority's financial performance during the fiscal year that ended on June 30, 2010. Please read it in conjunction with the Authority's financial statements, which follow this section.

Financial Highlights

- Net assets of the Authority increased \$48.5 million, to \$623.9 million as of June 30, 2010, from an increase in the Authority's business-type (\$16.0 million) and governmental (\$32.5 million) activities.
- The increase in net assets, after transfers, of the Authority's business-type activities increased \$2.2 million from the prior year due primarily to lower interest expense (\$8.5 million) and decreases (\$4.2 million) in the estimated losses on mortgage participation certificates, partially offset by lower investment income (\$2.7 million, primarily from lower investment yields), and a decline in interest earned on program loans (\$6.4 million).
- Authority debt issuances during fiscal year 2010 totaled \$385.7 million. The Authority's debt outstanding (net of discounts and premiums) of \$1,701.8 million as of June 30, 2010 was \$155.3 million above the amount outstanding as of June 30, 2009.
- With the cost of borrowing remaining high due to weakness in the economy, the United States Department of the Treasury ("Treasury") initiated a program ("Treasury Program") whereby the Treasury through Fannie Mae and Freddie Mac will purchase bonds directly from Housing Finance Authorities and act as bondholders. In December 2009, the Authority participated in the Treasury Program by issuing \$184 million of Multifamily Initiative Bonds and \$200 million of Homeowner Mortgage Revenue Bonds ("Bonds") held in escrow until conversion to long term fixed rate bonds and will be used to fund loans within the Mortgage Loan Fund and Single Family Loan Fund, respectively. The Treasury Program also required the Authority to convert all funds in escrow before December 31, 2010. Any funds remaining in escrow on December 31, 2010 are subject to a mandatory tender. On September 1, 2010, the Treasury amended the program by extending it from December 31, 2010 to December 31, 2011 providing the Authority the ability to convert three additional times (six in aggregate) to long term fixed rate bonds.
- Loan originations for the year totaled \$46.6 million and \$.1 million in the Authority's governmental and business-type activities, respectively, compared to fiscal year 2009 loan originations of \$52.2 million and \$122.5 million, respectively. Current year originations in governmental activities include \$28.3 million of loans funded by the Federal American Recovery and Reinvestment Act Fund ("ARRA Fund"). The Authority has continued to add whole loans to its Single Family Program Fund during fiscal year 2010 through the purchase of Government National Mortgage Association ("GNMA") certificates secured with Illinois whole loans.
- During fiscal year 2010 the Authority has continued to implement programs within the Federal ARRA fund pursuant to Section 1602 and the Tax Credit Assistance Program ("TCAP") to award grants or loans to sub-grantees for the development of low income housing.

Management's Discussion and Analysis

(Unaudited)

Overview of the Financial Statements

The financial statements consist of three parts – management's discussion and analysis (this section), the basic financial statements, and supplementary information. The basic financial statements include two kinds of statements that present different views of the Authority:

- The first two statements are government-wide financial statements that provide information about the Authority's overall financial position and operations. These statements, which are presented on the accrual basis, consist of the statement of net assets and the statement of activities.
- The remaining statements are fund financial statements of the Authority's four governmental funds, for which activities are funded from State appropriation (grants), HUD and U.S. Treasury Programs, and which the Authority follows the modified accrual basis of accounting, and three proprietary funds, which operate similar to business activities and for which the Authority follows the accrual basis of accounting.
- The basic financial statements also include notes to the financial statements that explain some of the information in the government-wide and fund financial statements and provide more detailed data.

The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of these statements. The prior year results referred to throughout this section for comparison purposes are as previously reported.

The government-wide statements report information about the Authority as a whole using accounting methods similar to those used by private sector companies. The statement of net assets includes all of the Authority's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. Most of the Authority's activities are business-type and are reported in its proprietary funds.

The fund financial statements provide more detailed information about the Authority's most significant funds and not the Authority as a whole. The Authority has two kinds of funds:

- Governmental funds – The Authority has four governmental funds. The Authority is the administrator of these funds, the revenues of which are appropriated annually to the Illinois Department of Revenue except for revenues received directly from HUD and the U.S. Treasury for the purpose of making housing grants and loans. These fund statements focus on how cash and other financial assets flowing into the funds have been used. Revenues converted to long-term loans comprise a substantial portion of the funds' net assets.
- Proprietary funds – The Authority's primary activities are in its three enterprise funds, which activities are accounted for in a manner similar to businesses operating in the private sector. Funding has primarily arisen through the issuances of bonds, both tax-exempt and taxable, the proceeds of which are primarily used to make various types of loans to finance low and moderate-income housing. The net assets of these funds represent accumulated earnings since their inception and are generally restricted for program purposes.

Governmental Activities

Net assets of the Authority's governmental activities increased \$32.5 million, or 17.1%, to \$222.2 million from an increase in the HOME program and Federal ARRA Fund, due to the conversion of grant revenues to program loans receivable. No net assets of the Authority's other two governmental activities are recorded on the Authority's financial statements. The equity of the Affordable Housing Trust Fund (Housing Program) is recorded as due to the State of Illinois. All revenues of the Rental Housing Support Program are ultimately disbursed as grant or administrative expenses, and therefore no equity is recorded on the Authority's financial statements.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

(A Component Unit of the State of Illinois)

Management's Discussion and Analysis

June 30, 2010

(Unaudited)

Total program loans receivable (current and non-current), increased by \$35.8 million, or 7.3%, to \$528.6 million primarily due to the Federal ARRA Fund for loans to support low income housing. Cash and investments increased by \$12 million, or 19.4%, due primarily to timing differences in year-end collections and increased Rental Housing Support Program revenues pending disbursement as grants. State statute and federal regulations restrict the use of the Housing Program, the HOME program, the Rental Housing Support Program and Federal ARRA Fund to program activities.

Due to the State of Illinois (current and non-current) increased \$4.8 million. This item reflects a liability for the State of Illinois' interest in the equity of the Housing Program as the Authority acts only as the administrator of the Housing Program and accounts for the interest in the equity to be that of the State of Illinois.

Business-type Activities

Net assets of the Authority's business-type activities increased \$16.0 million, to \$401.7 million consisting of an increase in net assets before transfers of \$10.8 million and the annual transfer (\$5.2 million) from the Affordable Housing Trust Fund. Program loans receivable (current and non-current) decreased \$135.2 million, or 9.4%, to \$1,301.6 million from decreases in the Authority's Single Family Program Fund (\$100.9 million), decreases in the Authority's Administrative Funds (\$2.5 million) and the Mortgage Loan Program Funds (\$31.8 million). The decrease in program loans receivable in the Single Family Program was due to adverse market conditions and the purchase of GNMA certificates secured with Illinois whole loans.

Cash and investments (current and noncurrent) increased \$297 million, or 46.6% from increases within the Mortgage Loan Programs (\$204.1 million), Single Family Program Funds (\$80.6 million) and Administrative Funds (\$12.3 million) primarily due to funds held in escrow as a result of the issuance of Multifamily Initiative Bonds (\$184 million) and the issuance of Homeowner Mortgage Revenue Bonds (\$200 million) under the Treasury Program.

Total bonds and notes payable (current and noncurrent) increased \$155.2 million, or 10%, from increases of \$1.7 million in the Administrative Fund and \$159.4 million in the Mortgage Loan Programs, partially offset by a decrease of \$5.9 million in the Single Family Program Funds.

Deposits held in escrow increased \$2.1 million, or 1.4% due to additions in funding levels related to the implementation of programs within the Federal ARRA Fund.

Other current liabilities decreased \$3.8 million primarily due to the Single Family Program Fund bond redemptions and no accrued interest related to the issuance of the Homeowner Mortgage Revenue Bonds under the Treasury Program.

Restricted net assets of the Authority's business-type activities increased \$15.6 million, or 5.0%, of which \$12.5 million were from increases within the Authority's bond funds. Except for net assets invested in capital assets within the Mortgage Loan Program (\$8.0 million deficit) and the net assets (\$5.3 million deficit) of the Multifamily Housing Revenue Bonds (Marywood) and Multifamily Bonds (Turnberry), which are classified as unrestricted, all net assets of the Authority's bond funds are classified as restricted. The remaining restricted increases in net assets were from the FAF program, earnings of which are recorded in the Authority's Administrative Fund.

Statement of Activities

The statement of activities shows the sources of the Authority's changes in net assets as they arise through its various programs and functions. Four programs, the Illinois Affordable Housing Trust Fund, the HOME program, the Rental Housing Support Program and the Federal ARRA Fund are shown as governmental activities. The business-type activities consist of two housing lending programs, the results of which are primarily recorded within the funds comprising the two major bond funds (the Mortgage Loan Program Fund and the Single Family Program Fund), federal assistance activities, which involve the allocation of various federal subsidy funds directly to certain of the Authority's borrowers, and the tax credit authorization and monitoring, and FAF lending programs, both of which activities are recorded in the Authority's Administrative Fund.

A condensed summary of changes in net assets for the fiscal year ended June 30, 2010 is shown in the following table.

Governmental Activities

Revenues of the Authority's governmental activities increased \$23 million from the prior year primarily due to Federal revenues of the ARRA Fund (\$58.7 million), partially offset by lower Federal revenues in the HOME Program of (\$14.7 million). Revenues from the Rental Housing Support Program decreased \$15.5 million based upon annual state appropriations (grants).

Direct expenses of the Authority's governmental activities increased \$10.1 million from the prior year, primarily due to new program initiatives within the Federal ARRA Fund (\$30.4 million), partially offset by decreases in the Rental Housing Support Program (\$15.5 million) and the Illinois Affordable Housing Trust Fund (\$5.6 million). The transfer (\$5.2 million) from the governmental activities to the Authority's business-type activities represents an annual transfer, pursuant to the Illinois Affordable Housing Act, from the Illinois Affordable Housing Trust Fund to the Multi-Family Mortgage Loan Programs.

Business-type Activities

Revenues of the Authority's business-type activities decreased \$8 million from the prior year from a decrease in charges for services (\$9 million) and unrestricted investment income (\$.9 million), partially offset by an increase in federal revenues (\$1.9 million). Charges for services consist primarily of interest income on program loans (\$69.6 million), program investment income (\$7.1 million), servicing fees (\$10.1 million), and other income (\$12.4 million). Program investment income is that income earned within the Authority's bond funds, the investments and the income of which is restricted to those funds. Such income decreased by \$1.6 million from the prior year due primarily to lower investment yields and lower amounts invested.

Direct expenses of the Authority's business-type activities, which consist primarily of interest expense (\$67 million) on Authority debt incurred to fund its various lending programs and the pass-through of federal assistance programs' funds (\$140.4 million), decreased \$9.7 million from the prior year, due mainly to lower interest expense (\$8.5 million) a decrease in estimated losses on mortgage participation certificates (\$4.2 million), partially offset by increases in estimated losses on program loans receivable (\$2.5 million) and professional fees (\$0.5 million).

The Authority's business-type activities also generated \$.4 million of unrestricted investment income, which was used primarily to partially offset its administrative costs. Program revenues of the Multi-Family Mortgage Loan Programs exceeded direct expenses by \$22.5 million (See the Statement of Activities) and thus provided most of the Authority's increase in net assets.

Net assets of the Administrative Fund increased \$3.6 million, compared to the prior year increase of \$3.3 million. Administrative Fund operating income was \$4 million, an increase of \$.2 million from the prior year, and net operating transfers (out) were \$0.4 million compared to net transfers (out) of \$0.5 million in the prior year. The fiscal year 2010 increase in operating earnings was primarily from increases in the Federal assistance programs (\$1.9 million), HUD Savings (\$0.5 million) and Service fees (\$0.1 million), partially offset by a decrease in interest earned on program loans (\$1.6 million), reversals of provisions for estimated losses on mortgage participation certificate program and provisions for estimated losses on program loans receivable (\$0.9 million), compared to additions of \$3.1 million in the prior fiscal year, and lower investment income (\$0.9 million) due to lower yields on investments.

Management's Discussion and Analysis

June 30, 2010

(Unaudited)

Net assets of the Mortgage Loan Program Fund increased \$15.3 million, compared to a prior year decrease of \$24 million, due to operating income of \$9.7 million and net transfers in of \$5.6 million. Operating income was \$4.4 million above the prior year, primarily due to lower future rebate obligations (\$1.2 million) and higher other income (\$2.1 million), lower interest expense (\$2.4 million), partially offset by higher provisions (\$1 million) for estimated losses on program loans receivable. The net transfer in includes the annual transfer (in) of \$5.2 million from the Affordable Housing Trust Fund.

Net assets of the Single Family Program Fund decreased \$2.8 million, compared to a prior year increase of \$34.5 million. The prior year included a \$35 million net transfer (in) from the Mortgage Loan Program Fund to acquire single-family mortgage loans or mortgage backed securities. The Program Operating loss was \$2.3 million below the prior year operating loss due primarily to a \$2.8 million decline in investment income, \$4.8 million decrease in interest earned on program loans and lower interest expense of \$6 million partially offset by higher provisions (\$1.3 million) for estimated losses on program loans receivable.

Authority Debt

Authority debt issuances during fiscal year 2010 totaled \$385.7 million (net of discounts and deferred gains and losses), with the issuance of Multifamily Initiative Bonds (\$184 million) within the Mortgage Loan Fund, Homeowner Mortgage Revenue Bonds (\$200 million) within the Single Family Fund, and a \$1.7 million increase in the Administrative Funds term loan. Debt retirements within the Mortgage Loan and Single Family Program Funds were \$26 million and \$205.7 million, respectively. Total bonds and notes payable increased \$155.3 million. For additional information, see Note 7, Bonds and Notes Payable in the Notes to Financial Statements.

During fiscal year 2010, the Authority's Issuer Credit Ratings remained at A1/A+ by Moody's Investors Service and Standard & Poor's Ratings Services respectively. The Fitch Ratings upgraded the Authority's issuer rating from A+ to AA- on December 15, 2009.

Economic Factors

The current financial state of the market with low investment yields has not proven to be economically feasible for the Authority to issue debt within the Mortgage Loan Fund and Single Family Fund.

With the cost of borrowing remaining high due to weakness in the economy, the U.S. Treasury initiated the Treasury Program whereby the Treasury through Fannie Mae and Freddie Mac will purchase bonds directly from Housing Finance Authorities and act as bondholders.

In December 2009, the Authority participated in the Treasury Program by issuing \$184 million of Multifamily Initiative Bonds and \$200 million of Homeowner Mortgage Revenue Bonds (Bonds). Proceeds from the Bonds upon conversion to long term fixed rate will be used to fund and finance loans within the Mortgage Loan Fund and Single Family Loan Fund, respectively.

The Treasury Program provided the Authority the ability to convert up to three times the proceeds from the Bonds held in escrow into long term fixed rate bonds. The Treasury Program also requires the Authority to convert all funds in escrow before December 31, 2010. Any funds remaining in escrow on December 31, 2010 are subject to a mandatory tender.

On September 1, 2010, Treasury amended the Treasury Program by extending it from December 31, 2010 to December 31, 2011. The amended Treasury Program also provides the Authority the ability to convert three additional times (six in the aggregate) to long term fixed rate bonds.

Management's Discussion and Analysis

June 30, 2010

(Unaudited)

The Authority operates its Homeowner Mortgage Revenue Bond Program (the "Program") to provide funds to purchase from selected lending institutions' mortgage loans made to eligible borrowers for owner-occupied, one-to-four-unit dwellings throughout the State of Illinois. The Authority recently completed a review of the outstanding Program mortgage loans and determined that the Authority does not have in place pool insurance for up to 680 mortgage loans otherwise eligible to be covered by pool insurance policies obtained by the Authority. Pool insurance premium payments relating to those loans were not received by the applicable pool insurer. The amount of mortgage loans not covered by pool insurance represents approximately 9.39% of the Program mortgage loans currently outstanding. The Authority attempted, but was unable, to secure coverage from the pool insurers that were in place at the time the mortgage loans were initially originated.

Investment yields of United States agency and United States Government obligations, which comprise over 97% of the Authority's investment portfolio, are remaining at historically low levels and continue to depress the Authority's investment income.

Notes to Financial Statements

June 30, 2010

Note 1. Authorizing Legislation

The Illinois Housing Development Authority (the Authority) is a body politic and corporate of the State of Illinois (the State) created by the Illinois Housing Development Act, as amended (the Act), for the purposes of assisting in the financing of decent, safe, and sanitary housing for persons and families of low and moderate income in the State and assisting in the financing of residential mortgages in the State. To accomplish its purposes, the Authority is authorized by the Act to make mortgage or other loans to nonprofit corporations and limited profit entities for the acquisition, construction, or rehabilitation of dwelling accommodations and to acquire, and to contract and enter into advance commitments to acquire, residential mortgage loans from lending institutions. The Act also authorizes the Authority to issue its bonds and notes to fulfill corporate purposes, including the financing of mortgage and construction loans, the acquisition of residential mortgage loans and the making of loans for housing related commercial facilities. The Authority has issued various bonds and notes to finance mortgage loans and construction loans, to purchase residential mortgage loans from lending institutions and to make loans to private lending institutions for making new residential mortgage loans.

The bonds and notes outstanding as of June 30, 2010, as shown on the Authority's financial statements consist of both general and special limited obligations of the Authority (see Note 7). The full faith and credit of the Authority are pledged for payment of general obligation bonds and notes. The Authority has the power under the Act to have up to \$3,600,000,000 of general and special limited obligation bonds and notes outstanding, excluding those issued to refund outstanding bonds and notes. At June 30, 2010, amounts outstanding against this limitation were approximately \$2,065,000,000.

Note 2. Summary of Significant Accounting Policies

The following summarizes the significant accounting policies of the Authority:

Reporting Entity

As defined by accounting principles generally accepted in the United States of America established by the Governmental Accounting Standards Board (GASB), the financial reporting entity consists of the primary government, as well as its component units, which are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountability is defined as:

- (a) Appointment of a voting majority of the component unit's board, and either a) the ability of the primary government to impose its will, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- (b) Fiscal dependency on the primary government.

For financial reporting purposes, the Authority is a component unit of the State of Illinois. The Authority has no component units.

Basis of Presentation

Government-Wide Statements – The government-wide statement of net assets and statement of activities report the overall financial activity of the Authority. Eliminations have been made to minimize the double-counting of internal activities of the Authority. These statements distinguish between the *governmental* and *business-type* activities of the Authority. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Authority and for each function of the Authority's governmental activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (a) charges paid by the recipients for goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements – The fund financial statements provide information about the Authority's funds. Separate statements for each fund category, governmental and proprietary, are presented. The emphasis on fund financial statements is on major governmental and proprietary (enterprise) funds, each displayed in a separate column. Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund including interest income, service fees, and development fees. Exchange transactions are those in which each party receives and gives up essentially equal values.

The Authority reports the following major governmental funds:

Illinois Affordable Housing Trust Fund

The Authority is designated administrator of the Illinois Affordable Housing Program (Housing Program). The program is funded by the Illinois Affordable Housing Trust Fund with funds generated from a portion of the State real estate transfer tax collected by the Illinois Department of Revenue and held within the State Treasury. The funds are appropriated annually to the Illinois Department of Revenue by the General Assembly. In accordance with State statute, the Authority makes grants and low or no interest mortgages or other loans, some with deferred repayment terms, to acquire, construct, rehabilitate, develop, operate, insure, and retain affordable single family and multi-family housing for low and very low income households.

As the administrator of the Housing Program, the Authority considers the interest in equity of the Housing Program to be that of the State of Illinois and the Authority records a liability to the State of Illinois for their equity share. Additionally, the Authority records amounts received to administer the Housing Program as grant revenue.

HOME Program Fund

The Authority is designated program administrator for the HOME Investment Partnerships Program (HOME Program) for the State, the funds of which are appropriated to the Illinois Department of Revenue by the General Assembly. Under this program, the Authority seeks applicants and approves funding commitments for federal affordable housing funds made available under the HOME Program provisions of the 1990 National Affordable Housing Act.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

Notes to Financial Statements

Rental Housing Support Program Fund

The Authority is designated administrator of the Rental Housing Support Program (Support Program). The program is funded by a surcharge for the recording of any real estate-related document. The funds are appropriated to the Illinois Department of Revenue by the General Assembly. The Authority awards funds to local administering agencies, which will contract with local landlords to make rental units affordable to households who earn less than 30% of the area median income.

As the administrator of the Support Program, the Authority initially records amounts received as revenue and a due to grantee liability is recorded. As funds are disbursed from the program, the Authority reduces the liability.

ARRA Fund

The Authority is designated program administrator for Section 1602 of the American Recovery and Reinvestment Act of 2009 ("ARRA") for grants appropriated to the State of Illinois by the United States Department of the Treasury to finance construction or acquisition and rehabilitation of qualified low-income building for low-income housing in lieu of low-income housing tax credits. In addition, HUD makes awards to the Authority under the Tax Credit Assistance Program ("TCAP") to facilitate the development of projects that received or will receive funding in order to be completed and placed in service in accordance with the requirements of Section 42 of the Internal Revenue Code of 1986 and the regulations promulgated there under. These awards are then allocated to sub-grantees and the Authority will be responsible for the monitoring and reporting of the use of these funds.

The Authority reports the following major proprietary funds:

Administrative Fund

Development fee and financing fee income related to multi-family mortgage loans, income from service fees, and operating expenses of the Authority are accounted for in the Administrative Fund. In addition, the Administrative Fund has provided for supplemental financing of certain developments through residual income loans and below market financing for various developments through the Authority's Housing Partnership Program (see Note 5), and its lending program in conjunction with a debt service savings sharing agreement (the FAF Savings Program) with the United States Department of Housing and Urban Development (HUD) (see Note 12).

The Administrative Fund net assets that are classified as restricted by contractual agreement for loan and grant programs consist of the FAF Savings Program and income from insurance proceeds that was required to be disbursed as a loan to Lake Grove Village (ML-248).

Mortgage Loan Program Fund

The Mortgage Loan Program Fund accounts for the financing of low and moderate income housing developments from the proceeds of Housing Bonds, Multifamily Initiative Bonds, Multi-family Housing Revenue Bonds (Marywood), Multi-family Bonds (Turnberry II) and Affordable Housing Program Trust Fund Bonds, and for the retirement of such obligations.

The Authority holds first mortgage liens on such developments. Affordable Housing Program Trust Fund Bond accounts include a transfer of funds from the Illinois Affordable Housing Trust Fund.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY
(A Component Unit of the State of Illinois)

Notes to Financial Statements

June 30, 2010

Single Family Program Fund

The Single Family Program Fund accounts for the proceeds of Homeowner and Residential Bonds issued to provide funds for the purchase from lending institutions of mortgage loans on owner-occupied, one to four unit dwellings acquired by eligible buyers.

The use of tax exempt financing to provide eligible borrowers with below market-rate mortgage loans involves federal restrictions on expenses chargeable to the program. Any expenses incurred in the program in excess of such maximum amounts are absorbed by the Administrative Fund.

Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Nonexchange transactions, in which the Authority receives value without directly giving equal value in exchange, include federal and state grant revenue. Revenue from these sources is recognized in the fiscal year in which all eligibility requirements have been met.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Authority considers revenues to be available if they are collected within 60 days of the end of the current fiscal year.

Separate fund financial statements are provided for governmental and proprietary funds. Major individual governmental funds and proprietary funds are reported as separate columns in the fund financial statements.

The accounting policies and financial reporting practices of the Illinois Housing Development Authority (the Authority), a component unit of the State of Illinois, conform to generally accepted accounting principles (GAAP), as promulgated in pronouncements of the Governmental Accounting Standards Board (GASB). Additionally, in the government-wide and proprietary fund financial statements, the Authority applies the pronouncements of the Financial Accounting Standards Board (FASB) issued before December 1, 1989, which are not in conflict with GASB pronouncements. As permitted by GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the Authority has elected to not apply FASB pronouncements issued after November 30, 1989.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative plans by the Authority for financial resource utilization in a future period as documented in the minutes or budgeting process for a succeeding year. Such plans are subject to change from original authorizations and may never result in expenditures.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

(A Component Unit of the State of Illinois)

Notes to Financial Statements

June 30, 2010

A portion of the Authority's Administrative Fund unrestricted net assets as of June 30, 2010 are designated as follows:

Housing Partnership Program	\$ 4,400,000
To pay expenses for planned technology enhancements	1,000,000
To pay possible losses arising in the Multi-Family Bond Program attributable, but not limited to, delinquencies or defaults on uninsured or unsubsidized loans	4,000,000
Provide funds to purchase single family loans which eventually will be purchased with proceeds from future issuances of Authority bonds	35,000,000
Provide funds and reserves to support the Mortgage Participation Certificate Program, including the purchase of loans within the Program	<u>40,000,000</u>
	<u>\$ 84,400,000</u>

The designations of the Administrative Fund unrestricted net assets may be amended or rescinded by the Members of the Authority.

Net Assets

In the government-wide and proprietary fund financial statements, equity is displayed in three components as follows:

Invested in Capital Assets, net of related debt – This consists of capital assets, net of accumulated depreciation and related debt.

Restricted – This consists of net assets that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, generally it is the Authority's policy to use restricted resources first, then unrestricted resources when they are needed.

The use of assets of each of the program funds is restricted by the related bond and note resolutions of the Authority. Certain amounts in the above program funds are considered subject to the restriction that they be applied to the financing of housing for the respective program purposes or to the retirement of obligations issued for such purposes; these amounts may include certain investment earnings attributable to the respective fund net assets. Federal regulations restrict the use of the HOME Program. Accordingly, fund balances of the HOME Program are reserved for loans not due within one year, and assets of the Affordable Housing Trust Fund are due to the State. All net assets of the governmental activities column of the government-wide financial statements are restricted with respect to the use of cash investments and loan amounts that are to be repaid to the Authority. (See Note 5 for schedules of aging for the loans made under these programs. In addition, see the governmental funds – balance sheet, fund balance).

Unrestricted – This consists of net assets that do not meet the definition of "restricted" or "invested in capital assets."

Notes to Financial Statements

June 30, 2010

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to use estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses, and expenditures during the reporting period. Actual results could differ from the estimates.

Risks and Uncertainties

The Authority invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. Such changes could materially affect the amounts reported in the balance sheet and the statement of net assets.

The allowances for estimated losses are reported based on certain assumptions pertaining to the Authority's periodic review and evaluation of the loan portfolio, which is subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Authority considers all cash, certificates of deposits, time deposits, and short-term repurchase agreements with original maturity dates of three months or less to be cash equivalents.

Investments

Investments of the Authority, which are generally held to maturity, are reported at fair value, with the exceptions of nonparticipating investment contracts (demand repurchase agreements), which are reported at cost. Fair value is determined by reference to public market prices and quotations from a securities pricing service.

The investment of funds is restricted by various bond and note resolutions of the Authority and the Act, generally, to direct obligations of the United States government; specific bank obligations, certain of which are fully secured as required by the bond and note resolutions; and obligations of other governmental entities which meet defined standards. The type of collateral instruments that secure the demand repurchase agreements held by the Authority is subject to the same restrictions described above. Generally, collateral instruments are held by third party institutions.

Program Loans Receivable

Program loans receivable include mortgage loans receivable, advances receivable, and residual income loans receivable. Mortgage loans receivable include initial development fees and certain amounts of interest and service fees that have been charged by the Authority and added to the loan balance. The due dates for advances and residual income loans receivable are dependent upon future events as specified in the related loan or advance agreements. All loans are reported at undiscounted face value.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

(A Component Unit of the State of Illinois)

Notes to Financial Statements

June 30, 2010

Capital Assets

Capital assets in the Administrative Fund consist of investments in furniture, fixtures, and equipment; computer hardware; computer software; and leasehold improvements and are defined by the Authority as assets with an initial, individual cost of \$5,000 or more. Depreciation or amortization is on a straight-line basis over a period of five to ten years, depending upon the nature of the asset. Leasehold improvements are amortized over the term of the lease. Depreciation and amortization expenses for fiscal year 2010 were \$47,697. Capital assets in the Mortgage Loan Program Fund represents the net carrying value of Lakeshore Plaza (ML-181), which the Authority acquired by deed in lieu of foreclosure on April 27, 1990. The Authority records depreciation against ML-181 on a straight-line basis over forty years, as past market conditions did not allow for a sale of the property. At June 30, 2010, the net carrying value of ML-181 was \$27,640,046 and accumulated depreciation was \$13,411,000. The Authority will continue to own and operate ML-181 until the sale or other disposition of the development occurs. Depreciation expense for fiscal year 2010 was \$800,000.

Real Estate Held for Sale

Real estate held for sale arises from foreclosures or other mortgage default-related actions on properties pledged as collateral on mortgage loans. Real estate held for sale in connection with the Single Family Program Fund is recorded at the unpaid principal balance plus accrued interest on the loans as of the date the loans become real estate owned, plus subsequent expenses incurred less any insurance or other loan related payments received. Since substantially all such loans are covered by pool insurance, based on the Authority's past experience, it is anticipated that the Authority will recover substantially all of the unpaid principal balances of the loans through proceeds arising from the sale of such property and certain insurance proceeds.

Bond Discount, Issuance Costs and Deferred Amounts on Refunding

Discounts on bonds are deferred and amortized using a method approximating the effective interest method. Debt issuance costs are deferred in the corresponding bond accounts and amortized over the life of the related bonds using a method approximating the effective interest method. When these costs exceed the designated amounts per the bond agreements, the excess bond issuance costs are expensed to the Administrative Fund. Deferred amounts on refunding are amortized over the shorter of the life of the old or new debt as a component of interest expense.

Operations

Development fee and financing fee income are deferred and amortized over the contractual life of the loan as a yield adjustment using a method approximating the effective interest method. Such amortized fees are recognized as interest income. Fees earned on loans, which the Authority does not directly originate, such as loans financed through Other Financings (see Note 7), are recognized as income in the Administrative Fund generally at the time of initial closing.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

(A Component Unit of the State of Illinois)

Notes to Financial Statements

June 30, 2010

Annual service fees charged by the Authority to loan recipients, which are deposited in the respective program funds or added to program loans receivable, are recorded as income in the Administrative Fund through interfund accounts.

Operating expenses include general and administrative expenses of the Authority; salaries and benefits; costs and expenses incurred in connection with the amortization, issuance, and sale of certain bonds and notes; fees and expenses of trustees and depository and paying agents; and costs related to analyses, surveys, appraisals, and other matters pertaining to maintenance and evaluation of program loans receivable. Operating costs and expenses are charged to expense as incurred, except those directly related to loan or program originations, which are deferred, netted against fee income for loans originated, and amortized over the contractual life of the related loan or program.

A portion of the Authority's operating expenses of administering the Illinois Affordable Housing Trust Fund, the HOME Program and the Rental Housing Support Program is absorbed by these programs. Similarly, related resolutions of various bonds issued allow for the bond accounts to absorb a certain level of operating expenses. Expenses in excess of the allowable ceilings set forth in the resolutions are charged to the Administrative Fund.

Direct expenses as shown in the statement of activities include allocations of Administrative Fund expenses of Authority departments directly involved in the production or monitoring activities associated with the programs, as well as certain costs, both internally and externally incurred, associated with these programs. Administrative costs include certain administrative and supportive functions and all overhead expenses.

Compensated Absences

The Authority grants vacation and sick leave to all employees and accrues for unused compensated absences. Vacations are allotted on a calendar year basis and are intended to be taken during that year. Unused sick leave allowance is carried forward and accumulated. In the event of termination, employees are paid for all earned but unused vacation time and, within a maximum time limit, for one half of accumulated sick leave earned. At June 30, 2010, unused compensated absences, which are included in current other liabilities, were \$644,112. These amounts are recorded in and liquidated from the Administrative Fund. The Authority has no other post-employment benefits.

Provision for Estimated Losses on Program Loans

The Authority provides for estimated losses on program loans in its proprietary and governmental funds based upon the periodic review and evaluation of the loan portfolio and provides additional amounts, if it deems necessary, for estimated losses for individual loans in the funds. In making such review and evaluation, the Authority considers current economic conditions, occupancy and rental level projections, financial statement analyses, on-site inspections, independent appraisals of certain developments, insurance coverage, and such other factors as it deems necessary.

New Accounting Pronouncements

The Governmental Accounting Standards Board has issued Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, which establishes accounting and financial reporting requirements for intangible assets. All intangible assets not specifically excluded by the scope of this Statement should be classified as capital assets. All existing authoritative guidance for capital assets should be applied to these intangible assets, as applicable. The Authority implemented this Statement for the year ended June 30, 2010.

Notes to Financial Statements

June 30, 2010

The Governmental Accounting Standards Board has issued Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. The Statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. It will improve financial reporting by requiring governments to measure derivative instruments at fair value in their economic resource measurement focus financial statements and allow the users to more fully understand the government's resources available to provide services. The Authority implemented this Statement for the year ended June 30, 2010. (See Note 7)

The Governmental Accounting Standards Board has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The Authority is required to implement this Statement for the year ending June 30, 2011. The Authority has yet to determine the impact of implementing this Statement.

Note 3. Cash and Investments

The Authority's Financial Management Policy (the Policy) contains the following stated objectives:

- *Safety of principal* – Preservation and safety of principal is the foremost objective of the Authority's investments. Each investment transaction shall seek to ensure that capital losses within the investment portfolio are avoided, whether they are from securities defaults or erosion of market value.
- *Liquidity* – The investments portfolio shall remain sufficiently flexible to enable the Authority to meet all operating requirements which may be reasonably anticipated in any fund. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demand.
- *Maximum rate of return* – The investment portfolio shall be designed with the purpose of regularly exceeding the average return of United States Treasury obligations of comparable maturities. The investment program shall seek to augment returns above this threshold, consistent with risk limitations identified herein and prudent investment principles.

Interest Rate Risk

Interest rate risk is the risk that the fair value of investments will decrease as a result of an increase in interest rates. The Authority's policy does not limit the maturity of investments as a means of managing its exposure to fair value losses arising from an increasing rate environment.

As of June 30, 2010, the Authority had the following cash and cash equivalents held in investments:

Investment	Carrying amount	Investment maturities (in days)			
		Less than 7	Less than 30	Less than 60	Less than 90

Demand repurchase agreements are collateralized by obligations of the United States Government or its agencies, or direct investments of such obligations and have one-day demand of funds provisions exercisable at the Authority's option. The market value of securities subject to such agreements must be maintained at least equal to 100% of the principal of and accrued interest on the invested funds by marking to market at least weekly and using an immediate under value cure provision.

Credit Risk

Credit risk is the risk the Authority will not recover its investments due to the inability of the counterparty to fulfill its obligation. Statutes of the State and resolutions of the Authority authorize the Authority to invest in obligations of the United States Government, agencies and instrumentalities of the United States Government, demand repurchase agreements, and other banking arrangements. The Authority may also invest its funds in such investments as may be lawful for fiduciaries in the State. All funds are held outside of the State Treasury in various banks and financial institutions, except for a portion of funds for the HOME program.

The Authority's investments in United States Agency Obligations are all rated Aaa by Moody's and/or AAA by Standard & Poors.

The counterparties to the demand repurchase agreements and repurchase agreements are institutions whose unsecured debt securities are rated at least equal to the ratings on the Authority's debt, or in the case of

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Authority will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Authority will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

The Authority's cash and cash equivalents at June 30, 2010, consisted of sweep accounts, held in the Authority's name, with the funds in these accounts invested in money market funds that invest in U.S. Treasury securities, or were held in accounts that were either FDIC insured or collateralized with U.S. government obligations. The Authority's investments at June 30, 2010 were held in the Authority's name in separate Authority custodial accounts. Collateral is pledged in the Authority's name and consists of U.S. Treasury obligations.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of investment in any one single issuer. The Authority's policy does not limit the amounts the Authority may invest in any one issuer (other than the U.S. government). The Authority is considered to have a concentration of credit risk if its investment in any one single issuer is greater than 5% of total investments. Investments which comprise more than 5% of the Authority's investments as of June 30, 2010 are as follows:

<u>Investment</u>	<u>Fair Value</u>
Federal Home Loan Bank	\$ 220,961,199
Federal National Mortgage Association	91,882,385

Note 4. Interfund Receivables, Payables, and Transfers

Interfund Balances

The Authority reports interfund balances among its funds. These balances generally consist of accruals for various revenues or expenses due to a fund, but received or paid to another, and subsidy transfers between funds. These amounts are generally paid or received within the subsequent fiscal year.

Interfund accounts receivable (payable) balances at June 30, 2010 consisted of the following:

Receivable To	Payable From						Total
	Illinois Affordable Housing Trust	Home Program	Rental Housing Support Program	Administrative	Mortgage Loan Program	Single Family Program	
Administrative	\$947,356	\$869,156	\$127,631	\$ -	\$3,589,120	\$728,261	\$6,261,524

The interfund accounts receivable (payable) between the Mortgage Loan Program Fund and the Administrative Fund primarily consists of a fiscal year 2000 operating transfer of \$10.4 million to the Multi-Family Housing Revenue Bond Accounts made from the Administrative Fund in conjunction with the issuance of the Multi-Family Housing Revenue Bonds, Series 2000A (Lakeshore Plaza Development) and the corresponding transfer of the carrying value of the real estate investment, ML-181, to these accounts, partially reversed by a \$5.4 million fiscal year 2006 transfer to the Administrative Fund, plus interfund accounts receivables related to mortgage assistance provided to two previously distressed loans, Innsbruck Apartments (\$4.4 million) and Larkin Village (\$2.8 million). The Authority intends to reverse the remaining amounts of the transfers upon the disposition of the properties.

The Authority records transfers between program funds for various purposes including fund closings, earnings transfers, program subsidies, and equity contributions for the initial financing of the Authority's programs.

Transfers

Transfers for the year ended June 30, 2010 consisted of the following:

Transfer in	Transfers Out			Total
	Illinois Affordable Housing Trust	Administrative	Single Family Program	
Administrative	\$ -	\$ -	\$ 26,685	\$ 26,685
Mortgage Loan Program	5,200,000	454,120	-	5,654,120
	<u>\$ 5,200,000</u>	<u>\$ 454,120</u>	<u>\$ 26,685</u>	<u>\$ 5,680,805</u>

Pursuant to the Illinois Affordable Housing Act, amounts up to \$10,000,000 in any fiscal year may be transferred, following an annual Authority certification to the Illinois Department of Revenue of the amounts required to be withdrawn, from the Illinois Affordable Housing Trust Fund to the Affordable Housing Program Trust Fund Bond Accounts. The amounts transferred during the year ended June 30, 2010 totaled \$5,200,000. The \$454,120 transfer from the Administrative Fund to the Mortgage Loan Program was to pay issuance and other costs of Multifamily Initiative Bonds.

Loans receivable in the Mortgage Loan Program Fund are secured by first mortgage liens on the related developments. Each development is subject to a regulatory agreement under which the Authority has certain powers relating to rents, profits, occupancy, management, and operations. Monies are required to be deposited in reserve accounts monthly by all mortgagors for real estate tax reserves and by substantially all mortgagors for insurance and replacement reserves. See Note 8 regarding these reserves and other deposits held in escrow.

The ability of the mortgagors to make required payments on the mortgage loans receivable depends principally upon the related developments achieving and sustaining sufficient occupancy and rental levels to support such payments. With respect to most developments financed from proceeds of Housing Bonds, the Authority, HUD, and the owners of the developments have entered into agreements whereby HUD will make, under its Section 8 Program, housing assistance payments for the developments. With respect to a portion of loans within its Housing Bond accounts, the Authority has made loans to finance developments entitled to interest reduction payments by HUD under Section 236 of the National Housing Act for all or a portion of the dwelling units in the developments. Such federal subsidies, together with the rents to be paid by the tenants, are estimated by the Authority prior to its issuing an initial mortgage loan commitment, to provide sufficient funds to pay the costs of operation, maintenance, administration, mortgage payments, and Authority fees with respect to each of the developments.

At June 30, 2010, for loans financed under the Mortgage Loan Program Fund, amounts in arrears equal to more than two months debt service payments and required deposits to tax and insurance and/or replacement reserves were \$712,221 and \$1,329,708, respectively.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

(A Component Unit of the State of Illinois)

Notes to Financial Statements

June 30, 2010

For certain past delinquencies, the related developments have not been able to generate net rental income sufficient to pay scheduled debt service and reserve deposits in full. In the opinion of the Authority, these deficiencies of net rental income have arisen for various reasons including (i) the existence of physical defects in the development which have caused operational problems, (ii) higher than anticipated operating expenses of the development and (iii) depressed rental market conditions in the development's local area.

In certain cases, cash deficiencies of developments, including certain developments as to which the related mortgage loans are not delinquent as to scheduled debt service payments or required reserve deposits, have been funded in part by advances from the owners of the respective developments. However, there generally can be no assurance that the owners will make additional advances for this purpose. For certain mortgage loans, the Authority holds reserve deposits and letters of credit that may be applied toward delinquencies.

The Authority has pursued actions available under the mortgage and regulatory agreements to cure certain delinquencies. With respect to some developments, the need for capital improvements, repairs, marketing campaigns and other expenditures may be indicated. Where necessary and appropriate, the Authority has committed and/or advanced residual income loans from the Administrative Fund or mortgage loan increases from the related program account to finance these expenditures. In certain instances the Authority has initiated actions to effect necessary changes in the management of the developments. In addition, the Authority has, in some cases, filed suit against the applicable general contractors and/or bonding companies seeking corrections of the development's physical defects and has instituted foreclosure proceedings for certain developments.

The Authority has a second mortgage agreement relating to a \$4.4 million first mortgage for Innsbruck Apartments, ML-19. Under this agreement, upon the development's payment of a debt service amount as set forth in the agreement, the Authority, from its Administrative Fund, was obligated to subsidize debt service payments related to the first mortgage up to a maximum of \$6.2 million. The subsidy payments were applied to receivables within the Mortgage Loan Program. The maximum subsidy amount was reached in May 1999, after which the development became fully obligated for debt service of the receivables of the above bond accounts. The development is obligated to reimburse the Administrative Fund debt service subsidy payments from a portion of residual receipts generated from the development or upon sale of the development.

The Authority's policy for converting mortgage loans, except for loans financed under the Single Family Mortgage Loan Program, to non-accrual status is to discontinue the accrual of interest when a loan becomes 90 days past due. In addition, the Authority does not accrue interest income on loans in which payments are to be made from residual receipts of the development. Payments on such loans are recognized only as received. For loans receivable within the Single Family Mortgage Loan Program, the Authority accrues interest income on all loans unless they become Real Estate Owned properties, at which time the accrual is suspended.

As of June 30, 2010, the accrual of interest and service fee income was suspended on approximately \$2.9 million of mortgage loans in the Mortgage Loan Program Fund and such income was recognized only as received. Interest and service fee income due but not accrued was approximately \$584,000 in the Mortgage Loan Program Fund and \$60,000 in the Administrative Fund. In addition, the Authority does not accrue interest income on approximately \$12.1 million of mortgage loans recorded in the Administrative Fund. Payments made on such loans, which generally are payable from residual receipts, if any, of the affected development funds, are recognized only as received. The annual amount of interest on these loans is approximately \$201,000.

The Authority, through its Housing Partnership Program, provides loans to not-for-profit organizations, community groups and cities to finance the rehabilitation of existing housing and for the construction of new housing for low and moderate income persons and families. The program's activities are recorded in the Administrative Fund. At June 30, 2010, loans receivable under this program were approximately \$1.6 million.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

Notes to Financial Statements

June 30, 2010

In June 1994, the Authority entered into a Risk Sharing Agreement (Agreement) with HUD that permitted the Authority to participate in HUD's Pilot Risk Sharing Program, which has since been converted to a permanent program. Under this program, HUD will insure certain mortgage loans on multi-family housing developments (Risk Sharing Loans). HUD has authorized the Authority to make an unlimited amount of loans for such developments. Under the Agreement, the Authority will underwrite Risk Sharing Loans following its underwriting guidelines. HUD will insure the Risk Sharing Loans and will bear 10% to 90% of the loss, as elected by the Authority, in the event of a foreclosure. The Authority will bear the remainder of the risk. The program's service and insurance fee incomes are recorded in the Administrative Fund.

The Authority, as of June 30, 2010, has entered into forty Risk Sharing Loans totaling \$226,312,699 and elected that HUD assume 10% to 90% of the loss with respect to those loans. Except for eleven loans totaling \$67,412,699 financed through the issuance of the Authority's Housing Bonds and one loan in the amount of \$15,460,000 financed through the issuance of the Authority's Multi-Family Housing Revenue Bonds (Marywood), these loans are not included in the Authority's financial statements as the Authority sold 100% participation interests in the loans to outside parties.

Marywood Apartments Homes, L.P., the borrower for the Marywood Apartment Homes development, has defaulted under the loans made by the Authority, which include the Risk Sharing Loan within the Authority's Multi-Family Housing Revenue Bonds (Marywood) and loans within the Administrative Fund and Housing Bond Fund Accounts. The Authority has filed a foreclosure action and a claim with HUD for payment of the Risk Share Insurance. HUD has paid to the Authority during the fiscal year the Risk Share Insurance and the Authority has taken the proceeds of the insurance and redeemed the Authority's Multi-Family Housing Revenue Bonds (Marywood). The Risk Share Insurance regulations required the Authority to issue to HUD a debenture, which bears interest at an annual rate of 5% and matures in five years, in the amount of \$14,884,996, which is the amount of the proceeds of the Risk Share Insurance provided by HUD.

Under the terms of the Risk Share insurance in respect to the above development, HUD will bear 50% of the loss on the Risk Sharing loan. The Authority has reviewed the program loans receivable pertaining to the Marywood Apartment Homes development, for the purpose of determining ultimate collectibility, and believes that the allowances for estimated losses at June 30, 2010 in the accompanying financial statements are adequate to cover estimated losses of the loans.

At June 30, 2010, for loans financed under the Risk Sharing Program where the Authority sold 100% participation interests in the loans to outside parties, there were no amounts in arrears equal to more than two months debt service payments or required deposits to tax and insurance and/or replacement reserves.

In December 2000, the Authority received a commitment from Ambac Assurance Corporation (Ambac) under which Ambac will insure mortgage loans (Ambac Loans) on multi-family housing developments under the Authority's Mortgage Participation Certificate Program. Ambac has guaranteed repayment of principal and interest due on a timely or accelerated basis in accordance with the agreement between the Authority and Ambac. The agreement allows (or provides) the Authority to share its risk with Ambac on the aggregate loan portfolio after the satisfaction of certain requirements and thresholds. As of June 30, 2010, the Authority has entered into eight Ambac Loans totaling \$32,392,200. Except for one loan in the amount of \$5,320,000 financed through the issuance of the Authority's Multifamily Bonds (Turnberry), these loans are not included in the Authority's financial statements as the Authority sold 100% participation interests in the loans to outside parties.

The Participation and Servicing Agreements for ten loans previously issued under the program contained a provision that, if Standard and Poor's Rating Services and Fitch IBCA, or their successors, both lowered the general obligation rating of Ambac to a level below AAA and Moody's Investor Service, Inc. or its successor also lowered the general obligation rating of Ambac to a level below Aaa, and if the Authority was unable within sixty business days to find a substitute guarantor of the payments due under the Participation Interest

with a general obligation rating of AAA or Aaa by any nationally recognized rating agency maintaining a general obligation rating on such insurer; or the Participant had the right to require the repurchase of the Mortgage Loan, then the Participant may elect to require the Authority to repurchase the Ownership Interest from the Participant within ten business days.

As of June 30, 2008 the above three rating services had lowered their ratings of Ambac to below the prescribed levels. The Authority did not provide a substitute guarantor, and the holder of the participation interests of four of the above loans, with outstanding balances totaling approximately \$33.9 million, during fiscal year 2009 exercised its right to require the repurchase of the Mortgage Loans. The Authority recorded as of June 30, 2008 a short term liability to purchase the four loans that the Participant elected to require the Authority to repurchase, and during fiscal year 2009 completed the purchase. The owner of the participation interests in the remaining six loans requested, and the Authority granted, an extension of the sixty day time period for the above actions or determinations to be made. The owner subsequently exercised its right to require the repurchase of the Mortgage Loans, and the Authority in November 2008 completed the purchase, the outstanding principal balances of which totaled approximately \$81.9 million. The remaining eight loans for which outside parties hold 100% participation interests do not have a re-purchase provision.

The above loans were purchased from existing Authority cash and investment resources and are recorded within the Authority's Administrative Fund (\$49.7 million) and Housing Bond Fund (\$66.1 million) accounts.

At June 30, 2010, for loans financed under the Mortgage Participation Certificate Program where the Authority sold 100% participation interests in the loans to outside parties, there were no amounts in arrears equal to more than two months debt service payments or required deposits to tax and insurance and/or replacement reserves.

With respect to the mortgage loans funded by the Homeowner Mortgage Revenue Bonds, substantially all delinquent mortgage loans receivable at June 30, 2010, were covered by pool insurance, which provides for an aggregate limit equal to 3.5% of the aggregate original principal amount of mortgage loans so covered, less a deductible ranging from 0% to 1.0% of the aggregate of the original amount of all mortgage loans covered.

Loans made through the Illinois Affordable Housing Trust Fund are to acquire, construct, rehabilitate, develop, operate, insure, and retain affordable single family and multi-family housing for low and very low-income households. Interest rates on these loans are set at below market rates and have ranged from 0% to 5.0%, with most rates set at 2.0% or below. Loans have maturities of up to 40 years, with some loans carrying deferred payment terms. The approximate aging of the Illinois Affordable Housing Trust Fund receivables as of June 30, 2010 are as follows:

The Authority believes that the allowances for estimated losses at June 30, 2010 in the accompanying financial statements are adequate to cover estimated losses of the various funds. The following summarizes the changes in the allowance for estimated losses on program loans receivable during the year ended June 30, 2010:

State statute requires that all uncollected receivables due that exceed \$1,000 be submitted to the Attorney General to be certified as uncollectible before the Authority can delete such receivables from its records. As of June 30, 2010, the Authority has requested sixteen such certifications totaling \$2,805,905, all for loans within the Illinois Affordable Housing Trust Fund. Additional certification requests are anticipated to be filed as loss amounts are determined following the conclusion of foreclosure or other loss mitigation activities. The Authority has established provisions for estimated losses against such loans requested and to be requested for such certifications in amounts equal to the outstanding principal balances of the loans.

Note 7. Bonds and Notes Payable

Bonds and notes outstanding are general obligations (G.O.) of the Authority with the exception of Homeowner Mortgage Revenue Bonds, Affordable Housing Program Trust Fund Bonds and Multi-family Bonds (Turnberry), which are special limited obligations (S.L.O.) of the Authority, payable from pledged property as defined in their respective general resolutions. The Authority has also pledged its general obligation to the payment of the Affordable Housing Program Trust Fund Bonds to a limited extent and amounts.

The Authority has pledged future mortgage loan revenues, net of specified operating expenses, to repay the outstanding \$1,246.6 billion (principal) in S.L.O. Bonds as noted in the following schedules for our Mortgage Loan program and Single Family Program Funds. The total principal and interest remaining to be paid on the S.L.O. Bonds is \$1,837.3 billion. Interest paid for the current year was \$47,114,794, and total related mortgage loan principal and interest received were \$42,330,576 and \$100,556,999, respectively.

Bonds and notes outstanding at June 30, 2010 are as follows. The June 30, 2009 amounts are shown for comparative purposes only.

- (1) In accordance with the indenture, interest rates on the bonds are determined weekly and are paid monthly at a rate established by the Remarketing Agents on each Rate Determination Date. The variable rates paid on the subject bonds ranged from .30% to .40% at June 30, 2010. Pursuant to the liquidity agreements, the bonds are subject for purchase by liquidity providers (Liquidity Providers) in the event of a tender by bondholders (Bank Bonds). Subject to other provisions within the liquidity agreements, the Bank Bonds will bear interest at a rate specified within the agreements and continue to be subject for remarketing by Remarketing Agents. In the event the Remarketing Agents are unable to remarket the Bank Bonds over a certain period of time, the Bank Bonds are subject to a put whereby the Authority is required to purchase and redeem the Bank Bonds over a period stated within the agreements. The Authority has a take-out agreement with the liquidity providers to convert the bonds to an installment loan payable over a three-to-five year period. The interest rate that is to be paid during the liquidity and the put periods is 1 Month LIBOR plus 50 basis points for the Housing Bonds 2004 Series B, and the higher of 7%, Prime Rate or Federal Funds Rate plus 50 basis points for the Housing Bonds 2008 A, B and C. The liquidity agreements for Housing Bonds 2004 Series B and Housing Bonds 2008 A, B and C will expire on March 31, 2014 and April 30, 2011, respectively. The bonds and Bank Bonds are general obligations of the Authority and the timely payment of principal and interest on the bonds and Bank Bonds are subject to the credit enhancement agreements with credit enhancement providers (Enhancement Providers). The Authority has a general obligation to reimburse the Liquidity Providers and Enhancement Providers for any such payments made.
- (2) In December 2009, the Authority participated in the Treasury Program by issuing \$184 million of Multifamily Initiative bonds held in escrow to be converted to long-term fixed rate and used to fund and finance multifamily developments within the Mortgage Loan Program fund. The Treasury Program provided the Authority the ability to convert up to three times the proceeds from the Bonds held in escrow. It also requires the Authority to convert all funds held in escrow before December 31, 2010. Any funds remaining in escrow on December 31, 2010 are subject to a mandatory tender. On September 1, 2010, Treasury amended the Treasury Program by extending it from December 31, 2010 to December 31, 2011. The amended Treasury Program also provides the Authority the ability to convert three additional times (or six in aggregate) to long-term fixed rate bonds and also allows for a lower rate to be paid on the roll out of the long-term fixed rate bonds.

(1) In accordance to the indenture, interest rates on the bonds are determined and paid monthly based upon an index of one month LIBOR rate plus 0.40% for 2001 Series F. The variable rates paid on the subject bonds was .75375% at June 30, 2010. The Authority has entered into pay-fixed, receive variable, interest rate swap agreements in connection with these bonds, the objective of which is to establish a maximum debt service which may be paid over the life of the underlying bonds.

(2) In accordance to the indenture, interest rates on the bonds are determined and paid monthly based upon an index of one month LIBOR rate plus 0.415%. The variable rates paid on the subject bonds was .7688% at June 30, 2010.

(3) In accordance to the indenture, interest rates on the bonds are determined weekly and are paid monthly at a rate established by the Remarketing Agents on each Rate Determination Date. The variable rates paid on the subject bonds ranged from .25% to .35% at June 30, 2010. Pursuant to the liquidity agreements, the bonds are subject for purchase by liquidity providers (Liquidity Providers) in the event of a tender by bondholders (Bank Bonds). Subject to other provisions within the liquidity agreements, the Bank Bonds will bear interest at a rate specified within the agreements and continue to be subject for remarketing by Remarketing Agents. In the event the Remarketing agents are unable to remarket the Bank Bonds over a certain period of time, the Bank Bonds are subject to a put whereby the Authority is required to purchase and redeem the Bank Bonds over a period stated within the agreements. The Authority has a take-out agreement with the liquidity providers to convert the bonds to an installment loan payable over a three-to-five year period. The interest rate that is to be paid during the liquidity and the put periods is 1 Month LIBOR plus 50 basis points for the Homeowner Mortgage Revenue Bonds (HMRB) 2004 Subseries A-3, and 3 Month LIBOR plus 150 basis points for the HMRB 2004 Subseries C-3 and the HMRB 2005 Subseries A-3. The liquidity agreements for HMRB 2004 Subseries A-3, HMRB Subseries C-3 and HMRB 2005 Subseries A-3 will expire on March 16, 2014, July 13, 2012 and March 10, 2013, respectively.

Notes to Financial Statements

June 30, 2010

The Bank Bonds are general obligations of the Authority and the timely payment of principal and interest on some bonds are subject to the credit enhancement agreements with credit enhancement providers (Enhancement Providers). The Authority has a general obligation to reimburse the Liquidity Providers and Enhancement Providers for any such payments made.

(4) In December 2009, the Authority participated in the Treasury Program by issuing \$200 million of Homeowner Mortgage Revenue bonds held in escrow to be converted to long-term fixed rate and used to fund and finance single family loans within the Single Family Program Fund. The Treasury Program provided the Authority the ability to convert up to three times the proceeds from the Bonds held in escrow. It also required the Authority to convert all funds held in escrow before December 31, 2010. Any funds remaining in escrow on December 31, 2010 are subject to a mandatory tender. On September 1, 2010, Treasury amended the Treasury Program by extending it from December 31, 2010 to December 31, 2011. The amended Treasury Program also provides the Authority the ability to convert three additional times (or six in aggregate to long-term fixed rate bonds and also allows for a lower rate to be paid on the roll out of the long-term fixed rate bonds.

Debt Covenant Compliance

The Authority covenants in its various bond indentures to provide audited financial statements to the trustees named by the bond indentures within 120 days following the end of its fiscal year. The delivery of the audited financial statements with respect to the fiscal year ended on June 30, 2010 was delayed by approximately 18 days for non-financial reasons. The delay does not result in any adverse consequences to the Authority under the bond indentures.

Defeased Debt

The Authority has defeased debt by placing the proceeds of new bonds and other amounts in an irrevocable trust to provide for all future debt service payments of the old bonds. At June 30, 2010, the following outstanding bonds are considered defeased.

<u>Issue</u>	<u>Amount</u>
Insured Mortgage Housing Development Bonds, 1976 Series A	\$ 3,015,000
Multi-Family Housing Bonds, 1981 Series A	22,040,000
	<u>\$ 25,055,000</u>

Other Financings

From time to time the Authority has issued special limited obligations with a claim for repayment solely from payments received with respect to the mortgage loans. The bonds are not general obligations of the Authority, and they are not a debt of the State of Illinois; neither is liable to pay interest and principal on the bonds.

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

(A Component Unit of the State of Illinois)

Notes to Financial Statements

June 30, 2010

Accordingly, the bonds and the related mortgage loans are not included in the Authority's financial statements. The bonds do, however, apply toward the Authority's authorized debt limitation.

As of June 30, 2010, there were thirty-eight series of such bonds or notes outstanding, with an aggregate principal amount payable of \$357,418,786.

Assets Restricted for Capital and Debt Service Reserves

Pursuant to the Act and various resolutions of the Authority, certain assets (principally investments) are maintained in capital and debt service reserve funds and may be used only for the payment of principal and interest on certain bonds. The reserve funds must be maintained at an amount at least equal to the following:

<u>Bonds</u>	<u>Requirement</u>
Affordable Housing Program Trust Fund Bonds	Maximum amounts of principal, sinking fund installments and interest due in the then current or any future bond year for all bonds then outstanding.
Housing Bonds	The amount established by each series resolution, currently six months of maximum principal and interest payments.
Homeowner Mortgage Revenue Bonds Residential Mortgage Revenue Bonds	The sum of all amounts established by each series resolution, but such amount cannot be less than 2% for the Homeowner Mortgage Revenue Bonds, and 4% for the Residential Mortgage Revenue Bonds, of the sum of (i) the outstanding principal balance of related mortgage loans and (ii) the amount on deposit to the credit of series program accounts of the program fund.

The amounts of such reserves, for measurement purposes against the various bond resolution reserve requirements, are valued at book value or par, or, if purchased at less than par, at their cost to the Authority. At June 30, 2010, these amounts, which were not less than the amounts required, are as follows:

Housing Bonds	\$ 20,376,381
Homeowner Mortgage Revenue Bonds	<u>29,714,077</u>
	<u>\$ 50,090,458</u>

In addition to the above, the debt service reserve requirements of the following bond issues are satisfied by surety arrangements.

Derivatives

The incurring of obligations by the Authority involves a variety of interest rate payments and other risks, for which a variety of financial instruments are available to offset, hedge, or reduce these payments and risks. It is the policy of the Authority to utilize Risk Management Agreements to better manage its assets and liabilities. The Authority may execute Risk Management Agreements if the transaction can be expected to result in at least one of, but not limited to, the following:

- a) The reduction of exposure to changes in interest rates on a particular financial transaction;
- b) A lower net cost of borrowing with respect to the Authority's debt;
- c) The management of variable interest rate exposure consistent with prudent debt practices;
- d) The achievement of more flexibility meeting overall financial and programmatic objectives that cannot be achieved in conventional markets.

The Authority, as of June 30, 2010 has one active swap contract and four interest rate caps. Details are shown in the following tables.

* The fair value is classified as derivative instrument liability

The fair value of the interest rate swap was estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps.

The fair value of the interest rate swap and rate caps were estimated using data provided by the counterparties.

(2) Standard & Poors/Moody's

(3) Represents rate for swap and cap rate for interest rate caps.

To protect against the potential of rising interest rates, the Authority has entered into one pay-fixed, receive variable, interest rate swap agreement, the objective of which is to achieve a synthetic fixed interest rate on the underlying bonds at a cost anticipated to be less than the amounts paid had the Authority issued fixed-rate debt. In addition, the Authority has entered into four interest rate cap agreements, the objective of which is to establish a maximum debt service which may be paid over the life of the underlying bonds.

The terms, fair values, and credit ratings of the outstanding agreements as of June 30, 2010 are shown in the above table. The notional amount of the swap and caps match the principal amount of the associated debt. The Authority's swap and cap agreements contains scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or an anticipated reduction in the associated bonds payable category.

Because interest rates have declined since the implementation of the swap agreement, it had negative fair value as of June 30, 2010. The negative fair value may be countered by reductions in total interest payments required under the variable-rate bonds, creating lower synthetic interest rates. Because the coupons on the

ILLINOIS HOUSING DEVELOPMENT AUTHORITY

Notes to Financial Statements

Authority's variable rate bonds adjust to changing interest rates, the bonds do not have corresponding fair value changes.

As of June 30, 2010, the Authority was not exposed to credit risk for the swap that had negative fair value. As interest rates change and the fair value becomes positive, the Authority is exposed to credit risk in the amount of the swap's or cap's fair value. The Authority is exposed to credit risk on the caps with positive fair value (2004 B, 2008 A, and 2008 B). The aggregate fair value of hedging derivative instruments with positive fair value at June 30, 2010 was \$3,261. This represents the maximum loss that would be recognized at the reporting date if all counterparties failed to perform as contracted. Fair value is a factor only upon termination.

Basis risk on a swap occurs when the variable payment received is based on an index other than the index on the underlying bonds. The Authority believes its swap agreement has been structured to minimize or eliminate this risk.

The Authority or the counter-party may terminate the swap agreement if the other party fails to perform under the terms of the agreement. If a swap is insured, a termination event occurs if the insurer fails to meet its obligations under the agreement.

The Authority is not exposed to rollover risk on its swap agreement. The Authority is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the hedged debt. When these hedging derivative instruments terminate, the Authority will be re-exposed to the risks being hedged by the hedging derivative instrument. The Authority is exposed to rollover risk on the caps which have termination dates that occur prior to the final maturity of the related bonds.

As of June 30, 2010, debt service requirements of the Authority's outstanding variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term are as follows:

Note 8. Deposits Held in Escrow

Deposits from developers, which are held in escrow in the Administrative Fund, may be used when necessary to pay principal and interest payments and fund construction cost overruns, change orders, tax and insurance payments and capital improvements (see Note 5). In addition, on certain developments, letters of credit and assignments of syndication proceeds are held by the Authority for similar purposes and to fund potential operating deficits of the related developments; investment income earned on deposited funds is credited to the respective developer's escrow accounts.

Note 9. Leases

The Authority leases office facilities under a lease which extends through July 31, 2016, and which provides the Authority two successive five-year options to extend the lease beyond that date and, during certain time periods, to lease additional office facilities.

The office lease provides for annual base rent of approximately \$843,000 for fiscal year 2010, plus approximately \$882,000 for the Authority's 7.16% share of ownership taxes and operating expenses, which also are subject to adjustment, based on the actual costs incurred by the lessor.

For fiscal year 2010, total rent expense of the Authority was \$1,608,968.

2016	<u>1,001,036</u>
	<u>\$ 5,610,210</u>

Note 10. Other Liabilities

The bonds issued by the Authority after 1980 are subject to a variety of Internal Revenue Service (IRS) regulations which limit the amount of income which may be earned with non-mortgage investments to an amount not greater than the amount which would have been earned had the funds been invested at the yield on the bonds as defined by the IRS.

Excess earnings must be rebated annually, or every five years, depending on the date and type of bond issue. Included in other liabilities at June 30, 2010, is an estimated rebate liability of \$807,160.

The Authority is a defendant in various legal actions arising from normal business activities. Management believes, after consultation with legal counsel, that the ultimate liability, if any, resulting from these legal actions, will not materially affect the Authority's financial position or results of operations.

The Authority carries commercial insurance for director's and officer's liability, general liability, workers' compensation, and automobile ownership and usage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 11. Retirement Plan

The Authority provides a defined contribution retirement plan for the benefit of its employees. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Full time employees are eligible to participate in and are fully vested in the plan from the date of employment. All plan assets and investments are administered by a trustee, which maintains an individual account for each participant. The Authority contributes 6% of its employees' salaries and employees, at their option, may contribute up to 19% (within a maximum dollar limit) of their salaries to the plan. In addition, the Authority, under the provisions of the Economic Growth and Tax Relief Act of 2001, permits additional contributions each calendar year for those employees who attain age 50 (or higher) during the calendar year. The plan may be amended or terminated by the Authority at any time and for any reason in the future, but no such action can deprive employees of their vested interests.

The Authority's total payroll in fiscal year 2010 was \$13,374,506. The Authority's contributions were calculated using the base salary amount of \$13,228,700. The Authority contributed \$793,722 or 6% of the base salary amount, in fiscal year 2010. Employee contributions amounted to \$884,527 in fiscal year 2010, or 6.7% of the base salary amount.

Note 12. Commitments

At June 30, 2010, unexpended funds held by the Authority in the form of cash and investments amounting to \$260,049,904 in the Homeowner Mortgage Revenue Bond accounts were identified for the purpose of purchasing various mortgage loans. At June 30, 2010, unexpended bond proceeds held by the Authority in the form of cash and investments amounting to \$1,417,906 and \$184,136,077 in the Housing Bond and Multifamily Initiative Bond accounts were identified for the purpose of making various mortgage loans.

At June 30, 2010, the Authority had authorized commitments for loans and grants totaling \$9,629,881 for the Illinois Affordable Housing Trust Fund.

Under the HOME Program, \$397.2 million and \$24.2 million for federal fiscal years 1992 through 2009 and 2010, respectively, have been allocated to the State, to be administered by the Authority, under the HOME Program provisions of the 1990 National Affordable Housing Act. In fiscal year 1994, the Authority was allocated \$10.2 million of additional HOME funds to be used for flood disaster relief. At June 30, 2010, the Authority had authorized commitments for loans and grants totaling \$29,822,584 for the HOME Program.

In accordance with an agreement (the "FAF Agreement") entered into by the Authority and HUD at the time of delivery of the Authority's Multi-Family Housing Bonds, 1982 Series A, 1982 Series B, and 1983 Series A, annual Section 8 contributions payable to HUD with respect to the developments financed by these bonds would be reduced to the extent of the debt service savings resulting from the early redemptions of these Bonds.

These redemptions were accomplished through the issuance of the Authority's Multi-Family Housing Bonds, 1991 Series A and B, 1992 Series A and B, and 1993 Series A and B. In November of 2006, the Authority entered into a new agreement (the "FAF Refunding Agreement") with HUD at the time of delivery of the Authority's Housing Bonds, 2007 Series G to refund the Multi-Family Housing Bonds, 1991 Series A, 1992 Series A, and 1993 Series A. Pursuant to federal legislation and a written agreement with the Authority, HUD has agreed to share a portion of such savings (the FAF Savings Program) with the Authority in order to create and maintain affordable housing opportunities for individuals of "very low income" (as such term is defined in the 1937 Housing Act) in the State. These savings, which are to be used solely for the purpose stated above, became available beginning in fiscal year 1992 for the 1991 Series A and B Bonds and in fiscal year 1994 for the 1993 Series A and B Bonds, and are recorded as other income of the Administrative Fund. At June 30, 2010, loans receivable under this program were approximately \$20.1 million.

Note 13. Subsequent Events

The United States Department of the Treasury ("Treasury") initiated a program ("Treasury Program") whereby Treasury through Fannie Mae and Freddie Mac will purchase bonds directly from Housing Finance Authorities and act as bondholders. In December 2009, the Authority participated in the Treasury Program by issuing \$184 million of Multifamily Initiative Bonds and \$200 million of Homeowner Mortgage Revenue Bonds ("Bonds"). Proceeds from the Bonds upon conversion to long-term fixed rate will be used to fund and finance loans within the Mortgage Loan Fund and Single Family Loan Fund, respectively.

The Treasury Program provided the Authority the ability to convert up to three times the proceeds from the Bonds held in escrow into long-term fixed rate bonds. The Treasury Program also requires the Authority to convert all funds in escrow before December 31, 2010. Any funds remaining in escrow on December 31, 2010 are subject to a mandatory tender.

On September 1, 2010, Treasury amended the Treasury Program by extending it from December 31, 2010 to December 31, 2011. The amended Treasury Program also provides the Authority the ability to convert three additional times (or six in aggregate) to long-term fixed rate bonds.

Notes to Financial Statements

June 30, 2010

The Authority submitted a proposal on September 1, 2010 to Treasury and was approved to participate in the Federal housing program entitled the Housing Finance Agency Innovation fund for the Hardest Hit Housing Markets Program (the "HHF Program") created under the Emergency Economic Stabilization Act of 2008 (Public Law 110-343), as amended, as the same may be amended from time to time ("ESSA"). The state of Illinois was awarded \$445,603,557 to assist unemployed or substantially underemployed homeowners with interim mortgage payment assistance that will allow them to pursue sustainable income and homeownership through new employment or job training efforts without the immediate threat of default or foreclosure. The Authority will be the administrator of the HHF Program for Illinois and will be responsible for implementation and monitoring of the program throughout all areas of the State and all employment sectors as the foreclosure crisis and unemployment crisis in Illinois is diverse.
